

AURIGENE

PHARMACEUTICAL SERVICES

SUCCESS STORY

Decoding bispecific complexity

From characterization to
functional confidence

AURIGENE

PHARMACEUTICAL SERVICES

The Challenge

AURIGENE

PHARMACEUTICAL SERVICES

Our Approach

Deployed an analytics-driven characterization strategy

AURIGENE

PHARMACEUTICAL SERVICES

The Impact

Release-ready analytical package to ensure reliable Product Quality and increased Process Efficiency

Definitive characterization

homodimer ruled out, clipping site assigned

Process-tunable insight

lower clipping in subsequent batches

Dual-arm engagement confirmed

TAA and CD3 binding validated

Reproducible functional assays

Supporting clinical-batch release testing

AURIGENE

PHARMACEUTICAL SERVICES

Unlock complex bispecific analytical challenges

If you're facing hurdles in characterization, impurity assignment, or bioassay development, we'd be happy to explore solutions with you.
