PHARMACEUTICAL SERVICES

# GALAXY

**Data Updated**

Process development completed

# Introducing a
# workspace to monitor
# all your project progress.

## New Age
## Solution

**With Galaxy now you can:**

**1** See the status of your project on real-time basis from anywhere.

**2** Get secured access to all project related documents in 1 place for any future reference.

**3** View the contact details of the Project Manager and the Team working on your project.

# Everything you need, now in one place.

**ONE SINGLE SOURCE OF TRUTH**

At Aurigene Pharmaceuticals Services Limited, we understand that the customer experience is the key to successful growth. To foster our relationships with our clients, we have introduced a user-friendly customer experience platform - GALAXY; A groundbreaking project management solution to enable businesses to collaborate and help in faster delivery of projects. The tool provides secured access to track the various phases of the project from project initiation to closure, the status of the project on a real-time basis, the visual timeline for tasks, and monitoring of the various risks and issues associated with it. Galaxy is secured and passed by Vulnerability Assessment and Penetration testing and cybersecurity auditing.

For further understanding of the process, get in touch with our Business Development Team or the Project Management Team. We will ensure and provide all the required support to access your projects with ease.
